SUB: Licensing of barges for operating in Mormugao port.

It has been decided to work out a methodology for licensing of barges such that only licensed barges will be allowed to access port facilities based on the number of consignments of iron ore/other cargoes brought to the port by respective barges during the last six months. Only those barges/owners who continue to participate in the maintenance, growth and upkeep of the interest of the port, will be allowed to avail of bunkering and berthing facilities.

In view of the above, you are requested to furnish the details of cargoes handled by each individual barge from April 1, 2006 up to September 30, 2006. The information must reach the undersigned on or before November 24, 2006 to facilitate the port in formulating the norms for issuance of license to the barges to avail facilities provided by the port.
