Date: 02.01.2018

**TRADE NOTICE No. 1/2018**

**Sub: Cleaning of debris in the Receipt and Dispatch Yard of the MPT Railway Siding**

The members of the Mormugao Port Trust Safety Committee have on several occasions raised their serious concern on the compromise of safety of workers/officials of the South West Railway, MPT and Trade, due to the debris and waste material lying strewn around in the Receipt and Dispatch Yard (R&D Yard) of the MPT Railway Siding.

The specific requests to the Port Users to arrange to clean the Yard, has not yielded any positive results.

MPT has, therefore, decided to engage a private contractor for the cleaning of debris in the R&D Yard of the Ports railway siding for a period of one year. The expense towards this work shall be recovered from the actual user.

Accordingly, it has been decided to levy a Yard Cleaning Fees of Rs.500/- (exclusive of GST which shall be collected at the applicable rates) for each indented rake from the respective port user (PPP Operator/Stevedores).

This shall take effect from 1<sup>st</sup> January 2018.
